**PROGRAM**

**Creating Pollinator Pathways**

**Presenters: Jim Sirch and John Markelon**

**John Markelon**

Find out how to create and improve habitat in your yard or wildlife preserve for pollinators, including birds, bees, and butterflies. Our presenters will provide information and resources for both the beginner and experienced wildlife gardener alike. Even if you don't have a large area to work with, you can plant it and the pollinators will come. Also learn how to establish a "pollinator pathway" in your town through simple mapping tools, community organizing, and volunteer engagement.
