Explore the Natural World With Classroom Learning Kits

Created for grades 3-5 by National Audubon Society environmental education experts.

“SHARING OUR WORLD WITH BIRDS” A NEW CLASSROOM RESOURCE KIT FOR 2019-20

Topics:

Sharing Our Shores. People love to have fun at the beach. For many kinds of birds, beaches are places to nest and raise their young or to rest and refuel on long migratory journeys.

Seabirds: Feathered Ocean Mariners. Seabirds come in a wide variety of sizes and shapes, and they have a fascinating array of adaptations for spending most of their lives on water.

Raptors! The Birds of Prey. Owls, eagles, hawks, harriers, falcons, Ospreys, and kites—the diverse and charismatic birds in this group share physical features that make them the hunters of the sky.

EACH CLASSROOM KIT INCLUDES:

- Printed student magazines for 32 students
- Online interactive features for students and teacher guide with activities
- Hands-on investigations in local habitats and in the classroom
- Informational science text (reading and writing)

CORRELATED TO:

- Common Core Reading and Writing Standards
- Disciplinary Core Ideas and Component Ideas of the Next Generation Science Standards

ALSO AVAILABLE:

Getting to Know Birds
Birds, Bees, Flowers & Trees

Wild About Birds
Action for Planet Earth
